

BROWN JORDAN

Luca

“ After a trip up the coast, I fell in love with the visuals of the sport of Polo. The wood of the mallet, the horse irons, and the lushness of the outdoor green fields inspired me to create this collection. The curve of the chair was inspired by the shape of the horse irons. The perfect balance between the softness of the teak arms against the strength of the metal frames captures the essence of the polo mallet.

I hope customers feel they are bringing home art when they bring home my collection, something they appreciate and will keep in the family for many years and many moves.”

AM.

The Summer Icon

Conceived by visionary designer Ann Marie Vering captivated by polo, the sport of kings, each curve and contour is a nod to the elegance of the sport and the simple beauty of nature.

Meticulously Crafted

Designed to be both visually captivating and supremely comfortable, the attention to detail extends to every radius, every line, and every curve creating a collection that balances industrial design principles and elegant artistry.
